

## Declaration of Possible Conflict of Interest

Are you/Will you be\* nominated for any positions in the Management Committee of other clubs/societies/JCRCs\* or for the position of NUSSU representative of other clubs? (\* Delete if Necessary)

Yes ☒ No ☐ If yes, please state the committee(s): \_\_\_\_\_

## Declaration of Commitments

My current/potential commitments are: (IF YOU ARE STAYING IN A HALL OF RESIDENCE, PLEASE STATE HERE)

I am currently residing in Tembusu College. As of now there are no commitments. I believe there will be house events and interest group trainings will be held across the semester but many of which are up to individual sign ups and attendance. I intend to explore various activities to build better friendship and university life experience, but I am willing to commit and serve the bigger student body in the School of Computing.

## Declaration of Interest

Why I want to be a part of the NUS Students' Computing Club Management Committee:

I would love to be part of the SoC Management Committee as it gives me the first steppingstone to re-learn and deliver leadership skills to a wider community of students. I had experiences as a leader in smaller clubs and given that it is probably our last 4 years being students, I would like to take the opportunity to serve a bigger community.

I believe that studies are not everything. In fact, getting exposed to non-academic curriculum can better help improve one's soft skills and social circle. However, not everyone may agree to it. I hope to feel for our computing community at large, then, help identify the pain points our fellow students faced. Thereafter, create effective ways to bring about their involvement into the computing society.

I am currently applying for a Directorship in Community Service. I hope to help bring about effective community services, and to introduce more technology-related assistance to the society. Being a part of the management community means more responsibility to take care of the safety and experience of a larger student body. I wish to be able to provide improved community service experience to computing students and better recognise those who are genuine and sincere in their participations. Most importantly, to be able to influence and provide the right platform to form close knitted groups of community service volunteers. I look forward to challenging myself to build a platform to bond and spend quality life in school of computing with my peers.

List down all skill(s)/experience(s) relevant for your intended position:

**President of the Singapore Polytechnic Ambassadors (2016 – 2017)**

- Created strategy plans in the Training and Development Committee
- Conducted over 3 camps, 20 activities, and managed over 80 ambassadors
- Approve CCA plans and coordinated with school's admin for ministers' visits
- Increase Junior intake from 20 ambassadors to 65 Ambassadors while maintaining club budget

**Vice-President of the Financial Informatics Student Chapters (2016 – 2017)**

- Initiated bonding activities and co-approve plans
- Provided strategic plans for school's open house
- Outreach publicity efforts during course sharing

**Cadet Inspector of the National Police Cadet Corps (NPCC) Yishun Town Secondary School (2013 – 2019)**

- 13 consecutive Unit Overall Proficiency Gold Award across the years
- Nurture and enrich students in training, discipline and outdoor skills
- Unit Advisor | Unit Representative | Secretary | Camp Coordinator

**LEOPARDS VI – Nepal Service Learning 2010**

- Help rebuild concrete courtyard of an orphanage in Nepal
- Involved in community bonding with the local orphanages

Took part in multiple community service events from door to door elderly assistance, to helping organised school camps for the needed primary school students. I have also participated in in several flag day and fund-raising events in Singapore Polytechnic as well as the recent flag day in NUS.
