Declaration of Interest

Why I want to be a part of the NUS Students' Computing Club Management Committee:

I have always wanted to join NUS SoC, and now I hope to be able to contribute to and assist the Computing student body by joining the Computing Club Management Committee. I had been inspired by the smooth-running SoC eFOP organised in July, and I look forward to being part of a cohesive team that is able to organise events to orientate, teach, and support SoC students as they journey through their lessons and exams to ensure they have the best experience.

I believe that I have the technical skills and leadership capability to contribute substantially to the committee. I am running for the position of Finance Director, and I hope to bring in my previous experiences to work on the lessons raised by the 22nd MC during the Annual General Meeting.

Most importantly, I hope to form a tight-knit Management Committee that can provide SoC students with an enriching, smooth-sailing experience.

List down all skill(s)/experience(s) relevant for your intended position:

I have held several leadership roles and logistical roles in the past. In secondary school, I held a secondary appointment as the Logistics Head in NCC, in which I oversaw inventory and budget allocation.

In JC, as the Head of Training of my CCA I worked closely with the Head of Logistics to decide the budget and allocate and coordinate purchases to obtain the equipment we needed for our trainings.

I also worked part time in the warehouse of Ultra Clean Technology. In those 2 months, I created a temporary solution for inventory tracking using Excel which helped the company speed up their processes and reduce losses before a full solution was devised.

I am proficient with Excel and VBA in Excel and can use them for automating calculation and tracking.
