## Declaration of Interest

Why I want to be a part of the NUS Students' Computing Club Management Committee:

I want students in computing to feel like there are ample opportunities within computing club for them to work on their academics, network and feel comfortable within their university life. This is particularly important because greater comfort level with their academics would lead them to explore their interests in other academic or non-academic areas of their lives. This would enable every student of the computing club to have a holistic development of themselves, allowing a lot of them to achieve objectives such as picking up new interests while still in university.

List down all skill(s)/experience(s) relevant for your intended position:

I was a member of my school's student council body and have organized and supervised the following events: Custodians Day 2015, ACSemble: Schools Talent show 2016, Mid Autumn Festival 2015. Other than these experiences, I also organized company cohesion(sports day) within my army unit. I was also part of a project within my army unit that was focused on helping the unit members take their O'level or A'level examinations. Most of these events that I was part of, I was holding the appointment of a liaison. For example, for the Schools Talent show, I was the Media Logistics liaison. In army, being a Section Commander is equivalent to being a liaison between the men and the higher authorities in the army.
