Declaration of Possible Conflict of Interest

Are you/Will you be* nominated for any positions in the Management Committee of other clubs/societies/JCRCs* or for the position of NUSSU representative of other clubs? (* Delete if Necessary)

Yes ☐   No ☑   If yes, please state the committee(s): _____

Declaration of Commitments

My current/potential commitments are: (IF YOU ARE STAYING IN A HALL OF RESIDENCE, PLEASE STATE HERE)

Academic Commitments: DDP in CS and BBA with home faculty in SOC.

Potential CCA commitments: I might apply and join the NUS investment society as a member.

(ATTACH ADDITIONAL A4-SIZED PAPER IF REQUIRED)

Declaration of Interest

Why I want to be a part of the NUS Students' Computing Club Management Committee:

First of all, the two years that I spent in student council in my JC has been the most memorable and fulfilling experience ever so far. During those two years, I met many great people from whom I learnt so much and whose friendships I would treasure for a lifetime; I extended a helping hand to many people who had reciprocated with sincerity and joy which was enormously rewarding; and I grew much as a person, understanding what it meant to be both led and to lead. I aspire to forge such experiences and memories yet again, in NUS Computing Club this time.

Besides that, as a DDP student in both SOC and SOB, I think I have some rather unique ideas on how students from across disciplines can have the opportunity to meet, bond and help each other. Computing Club Management Committee is certainly a great platform for me to manifest these ideas into practical and realistic activities which will be ultimately beneficial to the students of SOC.

Last but not least, I enjoy working with people to make things happen. I understand it would never be smooth sailing for a team project but it is exactly because of those glitches and imperfections that we encounter that make us bond better as a team and become better versions of ourselves. Moreover, by planning and organising events for a larger student population, it is also greatly satisfying to find out that the participants enjoy and appreciate our efforts.

All in all, I really appreciated the experiences as well as the memories forged through the time and knowing that Computing Club Management Committee would offer such an opportunity for me to again meet great people, to help and serve people and to grow as a person, I would definitely regret if I choose not to be, or at least try to be part of the Computing Club Management Committee. Just like what the motto of my council "Kairos" has taught me, I shall seize the opportunity.
